Further details

Thunderstorms are expected across parts of England and Wales at times on Tuesday. Storms are likely to spread north from France early in the day, before developing more widely later. Whilst some places may miss storms altogether, where they do develop 20-30 mm of rain could fall in one hour, with a few spots perhaps seeing as much as 40-60 mm in one hour, which is very unusual for the UK. Large hail, lightning and gusty winds are also likely.

Very low likelihood of medium impacts
